Dear Mr. Turner:

I am writing to thank you for the funds Wireless Capital Partners provided for the Village of Worth's cellular leases. This significant infusion of capital will allow the Village to fund municipal programs and to create an investment plan.

I am very impressed with your knowledge and your professionalism. You answered all of the Board's questions and kept us informed throughout the process. I know that issues can arise during a closing, but I was pleasantly surprised by how smoothly this transaction went and how quickly the Village received the funds.

It was a pleasure working with you, and I will certainly recommend you and your company to other cell site leaseholders.

Sincerely,

Edward Guzdziol
President
