Dear Mr. Knyal:

As chair of the Property Committee for the Lower Providence Presbyterian Church, I was directly involved in our negotiations with WCP and your local rep, J. Michael Cobb. I've taken the trouble to write this note because the Church and I were extremely satisfied with the experience of working with WCP and with Michael.

Throughout the several months that the process required, Michael handled the WCP end in a thoroughly professional and efficient manner. He answered all our questions directly and in a timely fashion. He made himself available whenever needed and never failed to get back to us when we had questions or problems. He provided us with the references and other information we needed that made it an easy decision to accept WCP's offer rather than continuing with T-Mobile.

As Vice President of Information Services for Wyeth Labs for eleven years before I retired, I dealt with hundreds of vendors and would-be vendors, so I have dealt with the good, the bad, and the incompetent and I have an appreciation for a job well done. Michael Cobb did such a job. Based upon my experience with WCP and with Michael Cobb I would not hesitate to recommend WCP to any other church that may be contemplating a change in its antenna rental or considering renting its steeple or other property for such a use.

Thanks to WCP and to J. Michael Cobb for helping us to make an informed and timely decision concerning the future rental status of our steeple.

Sincerely,

Fred C. Azzara
Chair, Property Committee
